SABC APOLOGISES TO PRESIDENT RAMAPHOSA

Johannesburg – Thursday, 05 September 2019 - In a pre-recorded televised message by President Cyril Ramaphosa to the nation this evening, the South African Broadcasting Corporation (SABC), inadvertently broadcast an incorrect version of the President's speech on SABC News, while the correct version was played across all SABC radio stations.

The public broadcaster wishes to apologise to the President of the Republic and the nation for any embarrassment caused in this unfortunate breach of news production processes.

The SABC takes this issue very seriously and can assure the President and the public that due processes will be followed and appropriate action taken.
