SABC APOLOGISES FOR THE DISRUPTION OF BROADCAST SERVICES DUE TO POWER FAILURE

Johannesburg-Sunday, 01 September 2019-The South African Broadcasting Corporation (SABC) would like to apologise for the disruption of broadcast services for all Johannesburg based radio stations between 07h00 and 08h00 this morning. The affected radio stations include METRO FM, 5FM, Radio 2000, SAFM and RSG.

The disruption of broadcast services was due to power failure in and around the Auckland Park area where the SABC building is located, and the back-up generator not being able to kick-in as expected.

The SABC is pleased that these services have been restored.

END
